COMMISSION MERCHANTS.
THE undersigned, having this day entered into a copartnership under the firm of BROWN & LARKIN, in the Red Warehouse at the foot of East Water street, near Walker's Point Bridge, would announce to their numerous friends and customers, that they are now doubly prepared to serve them promptly and efficiently, in every branch of their business.
Particular attention will be given to PURCHASING and SHIPPING WHEAT and other Produce for dealers in this market; also, to Storing Wheat for Merchants and Farmers, on the most favorable terms.
The business of Receiving and Forwarding Merchandize for Merchants and others in the city and country, is particularly solicited, to which careful and prompt attention will at all times be given.
In disposing of Property entrusted to us to be sold on Commission, our effort will be to obtain the best price in the market, and make quick and accurate returns for the same.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.
THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.
It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. EMPIRE
INSURANCE COMPANY,
Union Springs, N. Y.
CAPITAL..........................$100,000.
THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."
They submit for the Judgment of their fellow citizens the following summary of their plan of operations:
1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c, and personal property therein.
5. Not more than $5000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.
The Directors, in soliciting patronage for the *Empire Insurance Company*, do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.
For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.
Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Capital over $165,000—in Cash and Premium Notes
THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saving nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 3000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Editorial Correspondence of the Albany Evening Journal

Letters from Mr. Weed—No. 33.

Vienna, May 1

Our route from Laybach was through Gratz Schottwein Glochnitz, &c., all large and pleasant Towns. The Railway is not yet completed over the Sommering Mountain, where Diligences are stationed to supply the broken link. Having crossed this mountain you descend into a broad Valley interspersed for forty miles, which brings you to Vienna with fertile fields and beautiful groves of undergrowth Pines. This vast plain resembles, except that it is entirely level, the country between Albany and Schenectady. At Neustadt we passed in sight of Hungary, and within a few rods of its boundary line.

Vienna, one of the great Capitals of Europe, is a beautiful City—in some respects the most beautiful I have ever seen. Its population is about equal to that of the City of New York. Its aspects are all decidedly attractive. The Streets are generally wide, well paved and remarkably clean, though you don't see how they are kept so. Its [illegible] (as its Parks, Gardens, Prater, &c., are appropriately called,) are more extensive, accessible and quite as beautiful as those of any City in the World. Those who live in the heart of the City can by a walk of from five to ten minutes reach the Glacis, a continuous Park handsomely ornamented with Trees and Flowers, which entirely surround the City. In this Park are Cafes, Restaurants, Grottos and Arbors. Fronting the Glacis are two or three Royal Palaces and the Museum of the Nobility. Without the Glacis are the suburbs, which constitute, however, a large portion of the City.

The Prater, or Hyde Park of Vienna, is a delightfully wooded green, over a mile in width and four miles long. It is thronged every afternoon, but on Sundays had especially on Festal days the display of Carriages, including all classes from that of the Emperor to the humblest Citizen, is truly brilliant. The great day for the Prater is Easter Monday. Next to that is May-day, and on this latter occasion we were there, but the weather was unfavorable, and the turn-out was not all that was expected.

Upon the Prater are amusements suited to all classes. There is a Circus, Museum, Music, Magicians, Ball Rooms, Fire-Works, &c. &c. Soldiers are stationed here, as indeed they are every where in Vienna, to preserve order. In this respect Vienna is a model City. It is impossible to find 400,000 People moving so actively and yet so tranquilly. The presence of a mighty Military force has something to do with all this of course. I was listened with Bayonets immediately after the *Coup d'Etat* but that City was less thoroughly Military in all its aspects than this, where almost every second man you meet is in Military costume. Vienna is literally thronged with Austrian Officers, whose snow-white Uniforms are very [illegible]. Indeed I have never seen a more genteel effect than the white broadcloth Cloak of Austrian Officers. I stood when the Emperor [illegible] is expected many legions were marching into the Capital so that Vienna is more than usually martial in all its appearance.

There are many objects of deep and absorbing interest here but as our stay is limited we can only visit the more prominent. The Palace of Schonbrunn, two miles from Vienna, and the Summer Residence of the Royal Family, is attracted our attention first. Its magnificent Garden is adorned with spots that at Versailles. Its walls are every where ornamented with Family Pictures, the most valuable of which are the numerous Portraits of Maria Theresa and Maria Antoinette. Of the latter here are at least a dozen tracing her from infancy to womanhood.

This Palace was the residence of Napoleon in 1809. It was while standing at one of its windows that the German Student fired at him, the ball taking effect a few inches above his head. This person it is known, Bonaparte sent for, questioned and desired to pardon, but when he avowed his determination if liberated to renew the attempt to rid his country of a Tyrant, he was ordered to execution. The chamber which Bonaparte slept in was the one in which his Son, the King of Rome, died. Another Son of Maria Louisa born at Parma resides in this City.

We saw the Emperor yesterday driving through the Gardens in a light two horse wagon with a single attendant. He is as you know a needy twenty-one years old, and looks even younger than he is. He is slender, fair complexioned and handsome. His Coronation, which has been expected for several months is still deferred. Various causes for the delay are conjectured, among which is the loss of the Crown of Hungary.

The Ex-Emperor, who abdicated during the troubles of 1848–50 resides at Prague. The Empress Mother, who is a woman of superior mind and almost gigantic frame, resides with her Son in the Royal Palace.

We looked through the Royal Carriage House and I think that about the most gorgeous turn-out in the world. It any rate exists the Carriage Establishment of Queen Victoria entirely into the shade. The State Carriage made for Maria Theresa and used on Coronation occasions is truly magnificent. Massive, chased and elevated gold abounds. Its panels were painted by Rubens. Ranged next to this are six very rich and beautiful Royal Coaches, and on the opposite side are half a dozen superb Sleighs, the rich Furs belonging to which are trimmed with heavy gold fringe. And then from a hundred to a hundred and fifty Carriages of various sizes and fashions, any one of which, in America would be considered decidedly aristocratic. In the Royal Stables are more than 400 Horses.

The Imperial Library presents so many objects of national interest, that a visit of an hour or a day, is but an aggravation. It contains nearly 300,000 Volumes and 16,000 Manuscripts. Among the *curiosities* of that vast literary storehouse is the Manuscript Psalm Book of Charlemagne, Title Deeds of a Convent written on Papyrus in the Fifth Century, Tasso's Manuscript of Jerusalem Delivered, a Latin Bible printed on Parchment by Faust and Schoffer, at Mayence in 1459. Connected with the Library is a collection of Engravings which numbers over 300,000, among which are the most rare and valuable prints ever published.

Then comes the Imperial Jewel Office displaying a Regalia so brilliant and costly as to amaze and bewilder simple Americans! Here are the Crowns of Charlemagne, of Rodolph II and of Napoleon when made King of Lombardy at Milan. Besides those costly Baubles are Gems of Diamonds alike precious and priceless.

In the Cabinet of Antiquities there is almost an endless succession of very interesting and valuable Curiosities, among which is a magnificent Cameo and an enormous Onyx, and of Coins and Medals there are 151,000.

Then come the Museum of Natural History, Cabinet of Minerals, &c., &c., but as these would consume time that we cannot spare we pass to the Church of the Augustines, where to see Marble Group, at the tomb of the Archduchess Christina, executed by Canova. It is certainly splendid, but the Marble is made to express deep, absorbing heart-felt grief in most touchingly [illegible] language. In this group are five figures, all as large as life and all exquisitely executed. It is a Monument Christina was not the personification of Virtue and Benevolence gems has been wickedly pronounced in her Monument.

The Cathedral of St. Stephen's, after all the great churches we have seen, is a structure of vast interest. It stands in the heart of the city, and has many exterior and interior attractions. It was completed in the 14th Century. The Tower is 453 feet high. The large Bell in the Tower was cast from 180 Turkish cannon taken from the Turks in 1683. From this Tower you can behold Bonaparte's great battle field of Wagram, Essling, &c.

Of the numerous Galleries of Art, I have only visited one, the Belvedere, and that mainly to see some of the best Pictures of Rubens, whose power to create on canvas what seems real, living flesh, surpasses that of all other Painters. In this Gallery, however, among many other valuable Pictures is the head of an old Woman by Denner, of such wonderful excellence as to be able to awaken pleasure as in a picture and old Woman than I ever saw. That it draws and fastens the attention of every visitor. It requires no cultivation of taste, no taste to appreciate his *Entire*. Price, in a Peasant light, and how the enjoy it alike. No visitor who [illegible] are necessary. Its perfection is instantly recognized. We had rather lend or the Picture or the Painter, and yet it arrests all and five hours attention as it does others for a look a time as we had to spare. This head is all that the Artist had done nothing else is glory. Enough for one man. But they say that the Gallery at Dresden is full of gems by the same Painter.

The Hon. Mr. McCurdy, our Chargé d'Affaires here, makes Vienna pleasant as possible to the Americans who visit it. In this duty he is seconded by his Daughter, an accomplished young Lady. Though things have occurred to disturb the feelings, and the relations formerly existing between Austria and America, Mr. McCurdy is treated here with all the courtesy and respect due to his public character. He had a long interview a few days since, with the Minister of State who succeeded the late Prince Schwarzenburg, the result of which was quite satisfactory.

Mr. McCurdy is a Connecticut Whig, whose Whig principles will weather wear nor wash out. He is the right sort of a man for the public service, and will be found faithful always. He has acquired much useful information here in regard to the condition and policy of European Governments. He goes with his daughter, on Friday, to Venice, Florence and Rome.

The Hon. Mr. Morris, our Representative at Naples, was to leave that place on an Oriental excursion on the 23d of April.

Mr. Cass, when we left Rome, talked of a visit to Paris with a view to Medical advice in relation to his eyes, from which he has suffered some time. Upon the question of Principle which divides America and Europe, we need not desire firmer or truer men than Messrs. Morris, Cass, or McCurdy. W.

☞ Two of the School Commissioners, Messrs. Robinson and Janssen, started for the north this morning, to attend to school sales. Gen. Estabrook will be detained a short time on account of business before the supreme court, when he will proceed to join the other commissioners.—*Madison Dem.*

Milwaukee Daily Sentinel.

MONDAY MORNING, JUNE 21, 1852.

Rufus King, Wm. H. Watson & John S. Fillmore, PROPRIETORS, UNDER THE NAME AND FIRM OF RUFUS KING & CO.

The Whig Convention.

We give under our telegraphic head the results of the *forty-six* ballotings of Friday night and Saturday. The wonderful tenacity with which the friends of each candidate stood by their men, will be remarked by every one. No change of more than 3 or 4 votes took place during the whole time until just at the close, when Mr. Webster showed a decided gain. We feel no disposition to speculate about the result, but shall continue to give our readers the news as fast as we can get it.

THE RELIGIOUS TEST.

The *News* in support of its sweeping assertion that "the Whig press" is assailing Mr. Pierce for having opposed the abolition of the Catholic test in New Hampshire—cites *four* Whig papers. Two of them do not make the charge—but do intimate that considering the great influence claimed for Mr. Pierce in his native State, he is partially responsible for the continuance of the test.

Another of the four did at first publish the charge, but on learning the facts in the case at once made a manly retraction. In only one of the four, the Buffalo *Express*, is the charge made, and we doubt not that it will be corrected there. In this State, we find that the Madison *Palladium* thinks that Mr. Pierce's sentiments are in favor of the test from the ultra Democratic character of his politics and those of his State. We doubt not that whatever Whig presses have expressed such an opinion, will cheerfully make any proper correction so far as Mr. P. is individually concerned. Yet the inference which they drew was natural enough, and for the double purpose of showing how natural it was to draw that inference and of refuting the calumny that the Whigs defeated the abolition of the Catholic test, we invite the attention of our readers to the following figures, illustrative of the vote in March of last year, on the subject. The total number of votes cast, on that question was 9,862 in favor of abolishing the test to 17,122 against. The total vote for Governor was much larger. Dinsmore (Dem.) receiving 27,123 votes, Sawyer (Whig) 18,134, and Atwood (Free Soil) 12,060. Now let our readers look at the table below, embracing 15 towns of each party:

DEMOCRATIC TOWNS.	Yeas	Nays	WHIG TOWNS.	Yeas	Nays
Barnstead	4	371	Merrimac	139	13
Centre Harbor	19	97	Nashua	647	16
Grafton	1	431	Nashville	[illegible]	9
[illegible]	1	116	New Ipswich	91	11
Ossipee	12	251	Dublin	11	13
Moultonborough	5	146	Fitzwilliam	94	1
Wakefield	1	212	Jaffrey	71	41
Wolfborough	41	83	Keene	253	6
Bow	6	140	Marlborough	51	2
Chichester	11	172	Troy	61	16
Warner	3	24	Winchester	204	6
Walpole	1	151	Claremont	215	19
Alexandria	12	310	Bath	107	34
Ellsworth	1	[illegible]	Littleton	101	50
Hill	11	138	Lyon	25	17
	30	2,516		2,5[illegible]	274

This table shows that the above named democratic towns gave almost ten votes to one against the amendment, whilst the Whig towns gave nearly four to one in favor of it. The town of Concord, in which Mr. Pierce resides gave 122 votes in favor of the amendment, to 509 against it.

Now we do not publish this to claim superior merit for the New Hampshire Whigs, but in strict self defence. Every Whig and every other voter in New Hampshire should have voted to abolish this unconstitutional religious test, and we think that title of true democracy ought to be claimed for New Hampshire until she does abolish it.

The Platform.

A dispatch of the 17th says that the platform is that published in the Philadelphia papers, referring to details given under our head heads in which we find the following paragraph:

The sixth is in favor of the adoption of a system of river and harbor improvements by the general government. The seventh and eighth endorses the final compromise measures in all its ramifications.

When the platform was reported in Convention various alterations were made—among them says a dispatch of the 18th, 1 P. M.:

In paragraph 6th, after navigable rivers insert "it is expedient that Congress should exercise such power." 7th and 8th considerably altered and changed.

The Jennings Case.—The long contested chancery case involving the Jennings estate in England, has at length been decided. The American claimants have no lot in the matter. The estate is divided into seven parts of £1,500,000 each, one of which goes to a Mr. Langman, a journeyman printer of Essex county, England.

Considering the great trouble and expense to which some hundreds of American claimants have been put, we think the successful parties ought to do the handsome thing by them.

Dodge Co. Gazette.—The first number of this paper just started by R. D. Wentworth, a genuine, earnest Whig, late of Mauston, has made its appearance. It is one of the handsomest sheets in the state, seven columns to a side, printed on new material entirely, and is a decided credit to its proprietor and to the fine county in which it is printed. There are hosts of live Whigs in Dodge Co. who will not suffer it to languish for want of abundant support. The *Gazette* adopts the cash system. Right.

Rapid Work.—Trains are now running daily between New York and Buffalo by the Hudson River R. R., and Central line in less than 12 hours! On Monday last the Express train went from New York to Buffalo in 11 hours 25 minutes, stopping half an hour at Albany, half an hour at Syracuse, and at other points long enough to leave the running time only 11h. 26m. The distance is 472 miles, an average running rate of 41 miles an hour. That will do until we can do better—Niagara has a way home from Canada, another one across Michigan in a six hour fast, and then take the lake, and there we are, only to wait the next improvement.

☞ The Hon. Caleb Cushing, of this city, yesterday morning, on his return to the East, circumstances making it necessary for him to be in Boston on the 21st inst. We are thus deprived of the pleasure of hearing him expound the principles of Democracy to our citizens.—*News.*

Perhaps the *News* would like to hear from Mr. Cushing's travelling companion, Hon. Robert Rantoul!

Information Wanted.—Of Mrs. Delphia Johnson, who formerly resided in Rome, New York. She has a daughter Catharine and a son Levi. She left home about twenty years ago for the West, and in 1842 resided in Galena, Ill. Her son Austin, now residing in Cleveland, is anxious to hear from her or her children. Any information communicated to him at Cleveland, Ohio, will be thankfully received.

Railroad Celebration.—The Southern Michigan Railroad Company is to celebrate its opening through to Chicago in that city on Wednesday of next week. A large number of visitors are expected.

☞ The San Francisco correspondent of the Journal of Commerce says: "At present there are a few Persians in our city. They attracted considerable attention on the Plaza last week while engaged in worshipping the sun."

The Case of the North America.—Thirty-one suits on behalf of as many passengers by the *North America* have been commenced by J. G. Hambly against C. Vanderbilt, each claiming $5000 for damages alleged to have been sustained by running that vessel ashore at Acapulco.

Judge Jackson.—The Mineral Pt. *Tribune* states that Judge Jackson, of the South West district has been laboring under indisposition for some time, and although recovering, will not be able to attend during the first part of the session of the Supreme Court.

City Matters.

Acknowledgements.—We desire to present our thanks to the operators of both telegraph lines for their constant endeavors to furnish us the news from the Convention. It will be seen that we give credit to both lines for the despatch, course which we were obliged to take in order to render the balloting correctly. Throughout Saturday the news came to us by both lines, sometimes one line and sometimes the other in advance.

Ice Cream Saloon.—Those of our citizens who are acquainted with the quality of Emery's Ice Creams and other "fixings"—and who in Milwaukee, does not know them?—will be glad to learn that he has recently fitted up a large room, 35 by 16, in neat and comfortable style and in it makes his best bows to his customers every evening. Emery's creams, taken in company, at about 9 1-2 P. M. this hot weather are not bad.

The Panorama.—Our readers will do well to examine the bills of this painting. They will see that a very poor artist could scarcely fail to make a work of interest with such scenes to inspire him. But when a painter of established reputation transfers his collection of sketches in one hundreds in number to the canvass there can be no doubt of its interest and beauty. Parties will see to morrow evening.

Day and Martin outdone.—James D. [illegible], manufacturer of blacking for boots, &c., residing in Chestnut St. has presented to us some specimens of his manufacture, which, we are assured, are superior to anything of the kind now in use. It gives a fine polish to the boot, makes it shine and softens and preserves the leather.

Strawberries.—We received a few days since from T. C. Dousman, Esq. of Ottawa, Waukesha Co., a lot of fine ripe Strawberries, equal in appearance and flavor to any we ever ate. No country can produce finer Strawberries than Wisconsin, and there is no fruit which can be made to yield so large a return in the hands of a skilful horticulturist.

Auction Sales.—Wall sells this morning a very desirable lot of household furniture. He also holds a mass meeting at Market Hall on Thursday next.

Shannon & Conover sell to-morrow a stock of goods, well worth examination.

Steamer Iowa.—This staunch Steamer arrived here yesterday. She goes down on Wednesday next, on her return trip to Buffalo. P. S. Bidwell will be on hand to sell tickets as usual, at the new U. S. Hotel.

☞ Albert Alden, Esq., late Sheriff of Waukesha, has just returned from California, where he has spent the last two years. He returns in good health and spirits. We learn from him that our late fellow citizen Henry Miller is Clerk of the Common Council of Sacramento City.

Paper Exported.—Messrs. Noyes & Mosely, of the Humboldt Paper mill shipped 11 tons of their manufacture by the *Niagara* to New York on Saturday. The trade will increase as the article is excellent and the demand constant.

Close Shave.—A dog crossing the Railroad track near Wauwatosa yesterday, had his tail cut off close to the body by one of the wheels of the locomotive.

Who is the Democratic Candidate?

The Detroit *Free Press*, Niles *Republican* and Lafayette *Courier* hoist the name of Franklin Pierce and are astonished to find that the Whigs are ignorant of him.

The Madison *Courier*, Bloomington *Gazette* and Franklin *Democrat* huzza for Franklin H. Pierce.

The Madison *Democrat*, the Winnebago *Times* and Sauk Co. *Democrat* go it for Franklin B. Pierce.

At Huntington (Ia.) George Pierce was the great man. At Wooster (Ohio) the Democrats ratified the nomination of James A. Pierce.

The Vincennes (Ia.) *Sentinel* says that a better nomination could not have been made than that of Gen. John A. Pierce.

And the far off Minnesota *Pioneer* has also been brought up with and hoists Frank Pierce like a boot.

Here are no less than eight democratic candidates for the pleasure of a decided defeat by the Whigs in November. If there are any more let them out.

Cholera in Dubuque.—By the following from the Mineral Pt. *Tribune*, it will be seen that the cholera has appeared at Dubuque. We have already noted its appearance in various places on the Mississippi and Ohio. Would it not be well for our Common Council to take measures to provide disinfectants in such parts of the City as need them? And is it not the part of prudence for our merchants to give their cellars a supply of lime without delay?—

The last Dubuque paper contains the report of the existence of Cholera in that city. It first broke out on the night of the 2d inst. and up to Thursday following some 25 cases have proved fatal. The disease has been confined to the low portion of the town and a large part of those attacked were raftsmen or persons engaged in taking lumber from the water.

The "Democratic Platform."—The Fishhorn *Star*, free soil, publishes the platform adopted by the Democracy and gives it the following first rate notice:—

We regard the platform as an abominable made up of obsolete issues about which no issue can be made at the present time. The old stereotyped resolutions about the United States Bank, Sub treasury, distribution of the proceeds of the public lands, and internal improvements capping the climax of folly by an endorsement of the fugitive slave law—*rather a nauseous dose.* But more of this hereafter.

Union and Harmony.

It is somewhat amusing to hear the locofoco prate of the harmonious action of their late National Convention. The proceedings of that body would indicate anything but harmony. It took forty-nine ballots to find out the candidate, could be driven to the support of any man, and that was only effected by taking a man unknown, of no name. Even after the name of the great obscure Pierce had been voted for several times, the convention came very near breaking up in a row, and would doubtless have done it but for the wonderful skill of the President in his parliamentary decision. The proceedings show that after the forty-seventh ballot, Mr. Daniel of Wisconsin moved that the convention adjourn *sine die* and leave each State to make its own nomination. This motion was decided out of order, and was not put. Whoever heard a motion to adjourn being out of order before? President Davis is the first to discover this more than point in parliamentary usage. But for this decision the convention would no doubt have adjourned in a row, and the party would have been in the condition of a ship at sea without a rudder. This was that sufficient union and harmony was effected to present the name of any man at all, and it would have been just as well to have presented none as the one they did, for he is bound to be less conspicuous after election than he was before the nomination.—*Madison Palladium.*

The Resources of Wisconsin.

Northern Wisconsin is undoubtedly rich in minerals and lumber and both interests are developing at a rate which is surprising. At this point we come in contact with the lumber interests only—that of the more Northern mines being confined in seeking an outlet to the Sault de Saint Mary and the Lakes.

Last season a couple of small boats, running one half the time, were competent to do the business of the Wisconsin river. At this time the tonnage is tripled and the boats are running all the time. To the farmers and the manufacturers of the Wisconsin river, Galena until this year was comparatively unknown, but they are rapidly becoming acquainted us and we hope it may long continue, and be founded on mutual interest both sides.

Two-thirds of all the freight which leaves this city weekly on the seven boats which run between this city and St. Paul is discharged below the foot of Lake Pepin, and the same, we believe, is true of passengers. Thus we see that if Minnesota is filling up and St. Paul rapidly growing, St. Anthony largely increasing and Stillwater shows a great increase of population, the towns and counties that line the Iowa and Wisconsin shore are getting their share of emigration and are showing new cities and towns which the traveller from month to month is hardly able to recognize as he passes them so rapid has been their growth and prosperity.—*Galena Adv.*

RAMBLES IN THE INTERIOR.

Correspondence of the Daily Sentinel.

Montello, June 1st, 1852.

Messrs. Editors:—This is the name of a Post office at a village built upon an ancient artificial mound, made in the form of a tortoise. There are a number of other mounds of interesting kinds in the vicinity, but the essential motive of a scientific friend (Mr. John Tewksbury) was a good botanist as well as horticultural and practical farmer, was one of the chief motives for a visit to the place. [illegible] He has detected here several interesting plants, among them the *talinum teretifolium*, which is very rare, having been found in few localities. He is author of a catalogue published in Downing's Horticulturist, and in the Albany Cultivator, and is engaged in some experiments from which new and useful results may be established. I endeavored to induce him to send his future communications to the great national society to be published in the transactions. To get here we crossed into the Indian country and saw the Indians in their wigwams, exhibiting many of their original habits and customs, mingled however with others derived from intercourse with the whites. It was with white folks. I astonished them very much by being able to stand upright in one of their frail canoes, while a pretty squaw paddled it across Buffalo Lake. The time allowed here even to remain on their lands expires at day. I could not learn that any measures had been taken for their removal. They are probably destined to remain where they are, and gradually dwindle away until they become extinct. They are much addicted to hard drink to obtain which their products are sacrificed to prevent their begging,—Government should see the first ones. The Indians are always ready to sell any thing they have for a few pennies or a few shillings, and the proceeds, notwithstanding the prohibitory laws are rapidly laid out in whiskey. Farther down the river here and to be [illegible] the exception is this place—there is also the one and the [illegible]. Perhaps if the Government would be more of proper means and less expenditure for the amount of money to be paid on account of the Indians. The Dollar in affording them a comfortable home, supplies of food, and instruction in agriculture, many of these children could be saved from the destruction that now awaits them. We certainly owe it to them—and to the cause of humanity to make at least some effort to be done for their behalf. Adopt the measure above suggested and for their *history and fate* the men from the red man and we will lay every obstacle removed from the civilized people. But as it is, if nothing is done they will never be recovered and this great will soon disappear.

A few minutes ride north from the north side of Buffalo Lake, the Fox is small, and from the [illegible] of this fine and famous river to the [illegible] Montello is a bad [illegible] the country—which it was the [illegible] to find this wonderful place. The river is more than three feet deep, in most places from one to two miles wide, and the bottom lands, the high bank at this place is the marsh. [illegible] the lowest the water comes to the high banks on either side, but the running water has its crooked channel through it. Upon leaving Montello the further in passing over from one Montello to the other we crossed the most incredible apology of a bridge I ever saw. I learned from Milwaukee, they are just the long over [illegible] and one of the [illegible] for the most probably tails, did. J. A. L.

South Dell House, June 3d, 1852.

A ride of about 20 miles through the woods, which, however, was much better than the travel from which I came, brought me to this place, which is one of the most interesting and remarkable localities within our State. The Wisconsin river is contracted from about a mile in width in some places to a channel [illegible] the water coming through it especially when high with great violence. The lofty banks here and elsewhere are very rugged and generally steep. The buildings are going up, and a large stage of [illegible] strong near, by the taking advantage of the eddies, may row a skiff up between the impending rocks. At one point the stream is contracted to 52 feet in breadth, and a very substantial bridge has been built across it, affording great accommodation to such as have to cross this large and important river. We laid the canoe by sounding a tape line down to the boiling eddies below, and found them 103 feet below the planks of the bridge. When the river is at low stage, the depth is said to be 46 feet or more. The rocks are composed of laminated sandstone—the layers horizontal, or inclined at different angles, and variously distorted by many movements or disruptions since the deposition of the rocks, but by some natural cause acting at the time of the formation of the rocks.

Mr. Parker takes much pride in showing off, to the best advantage the many wonders of the place, and takes the lead in showing the many long hollow shelves of rock, with the boiling caldron of a fountain depth directly under the surface—and through the caverns where it is [illegible] to [illegible] and where no *great* men can pass. They will no difficulty. One cave through which I passed on a former visit, is now under water. It is entered only in a boat in which we paddled a long some distance through a dim passage and then emerge again into the river at another place. To afford a passage for so large a body of water, it is certain that the river must have a great depth through the Dells, but no soundings have been made, as the swiftness and irregularity of the current. On the West side of the river here is a kind of second channel through which the river it is supposed to have passed. When very high it still discharges a portion of its water through this place, and here the "Improvement" will be made, should the State have any funds left to make improvements on the Wisconsin. The Dell House is at the place where the river emerges from the Dells and assumes its usual breadth. It here has almost the fact of a lonely dwelling and somewhat. Rounds the [illegible]. Within the gorge are rocks of much more considerable and [illegible] than at the head at a point 30 ft.

This spot is just the place to suit a naturalist—Agassiz would be in ecstasies all the time. Among many other new and interesting plants I found the Northern Scrub Pine (*Pinus Banksiana*) the Labrador Tea (*Ledum latifolium*), and the weed Hudsonia (*H. tomentosa*) all sub arctic plants and seldom or never found farther south than the Dells of the Wisconsin. At Kilbourn we encountered a heavy storm of wind and rain and hail, such as I never before witnessed. One hail-stone which I measured was one and a half inch in its longest diameter. The windows on the west side of the Dell House were completely riddled, then the wind changed and those on the east side suffered though not so much. The rain and hail poured down for half an hour without cessation, the wind blowing very heavily all the time. One of the most curious sights was the effect of the hail stones falling into the water, the whole surface being completely covered with *jets d'eau* a foot high constantly playing—presenting a rare phenomenon which can be compared with nothing else in nature. Cattle ran in every direction as if mad. Just as the storm broke away a raft made its appearance having encountered this dreadful storm while passing through the Dells. When the water is high, the "passage of the Dells" becomes quite a nice job, requiring an experienced pilot to prevent everything from being dashed in pieces against the rocks. Frequently a portion of the raft runs under the water, requiring the greatest activity in the men to keep upon the parts that remain above water. On some occasions it is said they have been turned completely over, and double rafts have been folded, one half upon the other. J. A. L.

Suicide Attempted.—Last Monday evening the wife of a Frenchman in St. Paul, actuated, it is said by jealousy of her husband, ran across Bench street down the bluff and jumped into the river up to her [illegible] determined to drown. But the water was too cold to drown comfortably, and the woman came out or was brought out. When the water gets warm and pleasant so as to make drowning agreeable she will proceed to consummate the act of suicide.

From the Minnesotian 15th

Two men were killed by lightning on Tuesday evening of last week at Willow river. Several lumbermen were encamped upon the bank of the lake when the fluid struck the bluff, and glancing off passed through the tent in which they were encamped. Another person who was lying between them escaped without injury. We were unable to learn the names of the persons killed.

The weather for the past week has been exceedingly warm—the thermometer ranging 95 in the shade. Who says this is a cold country? We have never before at any time nor in any place seen such vegetation have better than it has with us this year.

The first seizure under the operation of the Liquor Law was made on Tuesday last. It appears that a person by the name of Getchell lately arrived at this place with about $1000 worth of liquors from Chicago, which were stored in Mr. Babcock's warehouse. These facts becoming known a complaint was made before Justice Simons by some of our citizens. Getchell was arrested, tried and found guilty. He was fined $20.00 and costs and his Liquors declared forfeited, and to stand committed till the fine was paid.

We have been favored by Dr. Borup with the perusal of a letter just received from L. B. Culver of Fond du Lac, Lake Superior. The ice was still full of ice, from La Pointe to that place, and there was no probability of its clearing out before the 10th inst. He says:

We found the head of the lake full of ice down as far as Bois Point. We were three days working through the ice, cordelling all the way. It cannot clear entirely before the 10th June. The water has been very high at Fond du Lac up to the opening of the country store. It was [illegible] when the ice went out (1st May). The lumber and all the goods to the top of the hill to bring the whole establishment would be swept away. The ice came down in huge cakes, four feet thick.

Baltimore, June 17th

During all the morning an immense throng of delegates and others were pouring into the city and great interest is manifested to see and hear all that was going on.

At half past ten the members of the convention assembled and were soon ready for business at 12. Full 3000 were in attendance, and many more crowding in. The convention opened at 12 o'clock, and was organized preliminarily by choosing Hon. George Evans of Maine as chairman and Messrs. Upton of Louisiana and Bryan of N. Carolina as secretaries.

A motion was made to appoint a committee of one from each State to select officers for the convention.

Mr. Sevier of Louisiana then proposed that at first the previous action of the convention of the States should let the time intermediately be dispensed with. Lost on the table.

The motion was put to commit the was put to lay the delegation was directed to a number.

Southern Platform.

The following is the Platform adopted by the Southern Delegates:

1. Declaring that the General Government is one of limited powers, and denying the right of it to exercise powers not implied or granted in the Constitution.

The 2d and 3d—are in relation to the rights of the State, and the 4th protests against the doctrine of intervention.

5th. In favor of economical administration of the Government, and a tariff for revenue which will give encouragement to all the branches of industry in every section of the country.

6th. Is in favor of the adoption of a system of river and harbor improvements by the General Government.

7th and 8th endorses the finality of the Compromise measures in all their ramifications.

The resolutions are heartily adopted by the meeting, and on them being put to the delegates from the Northern States who were in favor of the nomination of Daniel Webster, they replied that they met with them and would adopt.

At the meeting at Carroll Hall last evening delegates from all the States were invited. The attendance was large including many Northern members and the platform drawn up by Southern delegates as given above, was submitted to the meeting.

After considerable interchange of opinions and finally the whole resolutions were unanimously recommended, with the further advice to submit them for the action and confirmation of the Convention previous to going into ballot for President.

Several other platforms have been drawn up to send to Northern members, in which the Compromise is not mentioned but it is believed it will be adopted by the Convention.

The afternoon session passed off harmoniously and everything promises well.

The Gaines Case.—The excellent and warm-hearted editor of the *Delta* (Orleans), New Orleans, has the following language in regard to the Gaines case, every word of which we know to be strictly true. We had the high honor of being classed among the friends of the "glorious old veteran," Gen. Gaines—as we hope we are still considered by his amiable and talented widow—and here is no phrase in the case that we have not heard from one or the other of them. Nearly two years ago we last saw Mrs. Gaines in this city then on her way to Washington to have the case brought before the United States Supreme Court the second time, and her hopes of success were high indeed. We have annexed the advertisement referred to below, and we trust ere long to announce the fact that right has triumphed, and that Myra Clarke Gaines will come into the long-withheld possession of her just rights.—

To the purchasers and present claimants of the Estate of the late Daniel Clarke.—The undersigned hereby gives notice that she is about to commence proceedings in the probate court of this city for the recovery of the estate of her father the late Daniel Clarke, under the devise made by him in 1813, instituting her as his legatee and only daughter—his universal devisee, and she here by warns all persons from purchasing any portions of the said estate, or from acquiring titles under the present holders or purchasers.

AN ACT

To authorize the several towns in this State to erect and maintain bridges.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Sec. 1. Any of the organized towns of this State are hereby authorized by a vote of a majority of the voters of such town to erect and construct bridges across any of the navigable rivers in this State running through the town erecting such bridge or bridges and shall have power by a like vote of the town to levy taxes upon the taxable property of said town to erect and maintain said bridge or bridges in the same manner the highway taxes are levied.

Sec. 2. The said bridge erected under the provisions of this act, shall be so constructed as not to obstruct the navigation of the stream upon which they are erected.

Sec. 3. This act shall be in force from and after its passage.

Approved April 17, 1852.

The Horicon Dam.—The break in this dam proves to be more serious than was first anticipated. About 70 feet of the dam has been carried away and a part of the bridge above the dam is gone; also the bridge 2 miles east of this village is entirely gone. The river is fast widening and in some places between here and Hustisford it is more than a mile and a half in width, and much damage must necessarily accrue to the farming country along the valley before the dam can be repaired. The proprietors of the dam, Sullivan & Co. have some sixty hands at work repairing it and are doing all they can to check the flood, with a favorable prospect of success. The citizens of the place, and we understand also those of the country around, are with commendable liberality turning in to their assistance.

We learn from the Watertown Register that up to Saturday noon last, the water at that place had risen only about 18 inches.—*Dodge Co. Gazette.*

☞ One of the prettiest annuals for the flower garden is the Cypress vine for its chaste foliage and brilliant flowers. There is a secret in cultivating this charming vine which a friend has imparted to us and which we vouch works like a charm, for we have tried it. At night put your seeds in a cup and pour in scalding water enough to cover completely the seeds, let them soak until morning, when plant them half an inch deep in light rich loam, and cover the spot with a piece of board, which do not remove until forty-eight hours after planting. Those that love flowers will be thankful for this information.—*Flushing Journal.*

Coming Back.—A company numbering some thirty or forty persons, who had started across the Plains for California, have returned to St. Louis mostly in a destitute condition, on the way to their respective homes. Several have lost relatives and friends by cholera and other diseases, and one poor family—a mother and two children—are returning without the husband and father and four or five little ones.

It is stated there are several hundred more who have become discouraged, will return.—*Chicago Journal.*

WHIG NATIONAL CONVENTION.

Baltimore June 16

FIRST DESPATCH.—During all the morning an immense throng of delegates and others were pouring into the city and the greatest interest was manifested to see and hear everything that was to be seen or heard at the present exciting moment. At 10½ the members of the Convention began to assemble in the hall preparatory to the time of opening which was fixed at twelve o'clock.

The hall is beautifully decorated much more so than when the Democratic Convention met. The platform has been constructed in the centre and is covered with carpeting. Immediately over the platform is a large transparency having on it the following words "Liberty and Union now and forever one and inseparable" in front of the officers' stand is another with the words "the Union of the whigs for the sake of the Union." The middle of the hall on the north and south ends is appropriated to spectators and at the present full 3000 are within the walls and others pouring in.

The galleries are nearly filled with ladies and those gentlemen only who accompany them. All parts of the room are carpeted so as to prevent anything like a noise from walking or stirring about. In addition to other matters for general comfort tan bark has been spread on all the streets so as to prevent noise arising from the passage of vehicles &c. The city is full of strangers more than double the number that were present at the Democratic gathering—the members of the Convention who have generally all been in Washington reached here yesterday P M and this morning.

Opening of the Convention

12½ o'clock

3d despatch—At 12 o'clock the Convention was preliminarily organized by selecting Hon George Evans, of Maine, as Chairman, and Messrs Upton of Ca., and Bryan, of N C Sec's.

A motion was made to appoint a Committee of one from each State, to select permanent officers for the Convention. Mr Seaver of L[illegible] here rose and protested against all the previous action of the Convention on the ground that the time for the meeting of the Convention had not arrived—several of the delegations had not yet come into the hall, and it was not 12 o'clock by the National Observatory clock at Washington.

The Speaker was the only delegate from his State present.

The motion for the appointment of a Committee of one from each State to select permanent officers was adopted, each delegation to name its member. The following are the names of the Committee:

Maine, Pleasanton; New Hampshire, Goodwin; Vermont Bradley; Massachusetts Choate; Rhode Island Ives, Connecticut, Tyler; N York Granger; New Jersey, Dayton; Pennsylvania Jessup; Delaware, Clayton; Maryland Clarke; Virginia, Janney; North Carolina Miller; South Carolina, Bryan; Georgia Conolly; Alabama Langdon; Mississippi Starr; Louisiana Bernard; Ohio Anderson; Kentucky Bell; Tennessee, Netherland; Indiana Ewing; Illinois Washburn; Missouri Bigham; Arkansas, Jones; Michigan Smart; Florida, Cabell; Texas Riley; Iowa, Kilborne; Wisconsin, Collins; California, Goodwin.

On motion a committee of one from each State was appointed on credentials as follows:

Maine, Mills; N H Nesbitt; Vermont Wright; Mass Child; R I Cross; Conn Ives; N Y Conkling; N J Fredenburg; Penn Rundel; Del Clayton; Md Morgan; Va Watts; N C Macon; S C, Patterson; Ga Fleming; Ala Gardner; Miss Harvey; La. Seaver; O Wade; Ky Grey; Tenn, Cooper; In Hudson; Ill Edwards; Miss Brodhead; Ark Gaines; Mich Williams; Fla Baker; Texas Nichols; Iowa Nightingale; Wis Brown; California Mudd

On motion the convention adjourned till 6 o'clock this evening.

BALTIMORE June 16—7 P M

The Convention was organized by a vote of 17 to 14. Gen John Chapman of Maryland was chosen President.

The Convention reassembled at 6 o'clock P M. The report of the committee on organization was adopted.

Chapman took the chair and delivered an address urging harmony and conciliation.

Prayer by the Rev Mr Stockton in which he feelingly alluded to Hon Henry Clay. Adjourned till a quarter before 12 to-morrow.

New Orleans June 15

The Picayune has received advices from Honduras of a highly important character. The inhabitants of Routan as also of five other islands dependent on the Honduras Bay, had refused to acknowledge British authority and claimed the protection of Honduras which had been accorded them.

The Superintendent had given orders to have the government buildings at Routan sold which was done at a great sacrifice. Every thing was in a state of rebellion and disorder and the most serious consequences are apprehended.

Cleveland, June 15

Last evening the steamer Forest City, Captain Pierce, left for Dunkirk in place of the Alabama, and when off Erie collapsed a boiler flue. Three firemen were instantly killed—James Farrel and John King of Detroit, and a man named Dennie who had been a fireman on board the Alabama and had yesterday been hired on the Forest City. Henry Gaylord, the Engineer, and his Assistant were standing beside the firemen at the time of the accident, and Mr Gaylord called to the firemen to run back. Had they done so they would have escaped, but in the excitement of the moment they attempted to climb up out of the hold and were scalded to death.

The two engineers escaped with but slight scalding. A passenger became so frightened [that he] leaped overboard but the small boat was lowered and he was rescued.

The Alabama went to the Forest City and towed her in.

An inquest was held on the bodies of King and Dennis—interred last night—The body of Farrel will be taken to Detroit where he leaves a wife and child.

READING ROOM ON A STEAMBOAT.—The Michigan Southern Rail Road Co have set an example in establishing a reading room on board of its steamers where all the latest newspapers are filed that we hope to see followed by all of the other steamers on our lakes. The new steamers *Northern Indiana* and *Southern Michigan* on Lake Erie have been commended to us very highly for this little piece of thoughtfulness.—*Clev. Herald*.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris called a
"Conformateur."
from which the above cut was taken. By it we can take the exact shape and anomaly *fit* the most irregular heads. Many can testify to the inconvenience and annoyance and actual pain they are subjected to in breaking in Hats that will not fit them. By this ingenious contrivance, this very great inconvenience is done away, as the Hats are made to fit perfectly the first time.
Another great advantage is by keeping a copy of the impression we can at all times fit our customers from all parts of the country.
We invite all who desire a perfect fit in a Hat to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.
Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extra low price of $4.25 [illegible] sold in this city. IT WILL STOP
THE MOST EXCRUCIATING PAINS,
IN FROM THREE TO FIVE MINUTES!
AND HAS CURED

Diarrhœa	In Fifteen Minutes
Toothache	In One Second
Spasms	In Five Minutes
Cramps	In Five Minutes
Sick Head Ache	In Fifteen Minutes
Chill Fever	In Fifteen Minutes
Chilblains	In Five Minutes.
Sore Throat	In Four Hours
Influenza	In One Hour

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME
Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits its in forms [illegible] of the Deity. Every joint and sinew [illegible] harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN
Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted frame with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system no matter in what particular locality the pain may originate, whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach, whether it arises from internal derangement or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN
Is the great desideratum of every individual who suffers torture, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.
RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS
Its effects are like electricity, it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane and canal, it [illegible] the secretion of every gland in the system, subduing the most excruciating paroxysm of pain and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY
Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain is relieved, sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and such, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE
The use of Morphine, Strychnine, Aconitine, Bedad una Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pain, *but to deaden the nerve, to steal on and stop the nervous energy, to paralyze the system of the nervous system, and to destroy sensation.* If this practice is continued for any length of time, the patient will not only waste away but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence. To the weak and paralyzed nerves it imparts life instead of death, activity and [illegible] stopped by the healthy influences which Radway's Ready Relief imparts to the nerves instead of the little sleepy and [illegible] effect which Morphine and other preparations containing this poison, produces on the system.

SICK HEADACHE.
Radway's Ready Relief will stop the most distressing pains in a few seconds, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,
It relieves the most severe pains in a few minutes—checks the most distressing discharges and
SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES
Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months were confined to their bed by Rheumatic pains whose bones were unsound from joint to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth and thousands in the city of New York and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief to the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY
Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

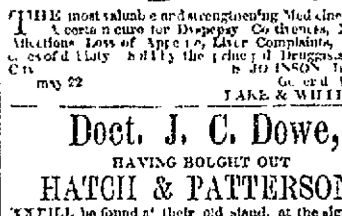

PAINS OF ALL KINDS
Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief either taken internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.
Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose,—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,

READ AND BE CONVINCED
[From the Boston Bee.]
The Editor said, Dec 22d. Dr Hoofland's celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."
SCOTT'S WEEKLY
One of the best literary papers published, said, August 25
"Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems.
The Daily Sun says — It is one of the best medicines of the age for Jaundice and Liver Complaint.
Neal's Gazette says — Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser.
The Evening Bulletin says — The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints.
The Daily News July 21, says — "A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence.
The Dispatch says — "As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures and thoroughly eradicating disease, when all other medicines have failed."

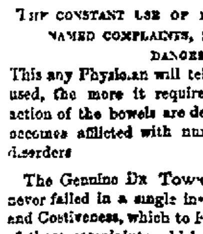

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver. It is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.
